PROFESSIONAL SUMMARY

CS undergraduate and Full-Stack Developer specializing in scalable, end-to-end solutions. Expertise spans modern frontends (React.js, JS) and backends (Python, Node.js), integrated with SQL/NoSQL databases (PostgreSQL, MySQL, MongoDB). Proven ability to design RESTful APIs, ensure system reliability, and deliver robust, data-centric applications.

SKILLS

Programming: Python, Javascript, C, C++, Java, PHP
Frontend: HTML, CSS, React JS, Next JS
Database: MySQL, MongoDB, PostgreSQL
Design Tools: Figma, Canva
Other Tools: Git, Postman,Jira
Other: Debugging, System design basics

PROJECTS

Gender Bias Detection in AI Mental Health Chatbots
Tech: Python, NLP
- Conducted quantitative analysis of gender bias in AI chatbot responses using structured experimental design
- Developed automated evaluation pipelines to assess bias across multiple response dimensions

LifeOS — Personal AI System
Tech: Python (FastAPI), PostgreSQL, Groq AI API
- Engineered a full-stack AI-powered productivity platform using REST APIs, PostgreSQL, and secure JWT authentication
- Developed end-to-end task and expense management system with optimized CRUD operations and dynamic data visualizations
- Integrated Groq AI to enable natural language insights over user data (e.g., real-time spending analysis)

Cafe Delivery Management System
Tech: React.js, Node.js, MongoDB
- Built a full-stack delivery system including user interface, admin panel, and database integration
- Implemented complete CRUD operations and order processing workflows
- Designed scalable architecture for managing orders, users, and delivery logic

Gym Management System
Tech: React.js, Node.js, MongoDB
- Developed responsive frontend components and integrated backend APIs for membership management
- Designed database schemas to handle user data and subscription workflows
- Improved user interaction through dynamic UI updates and efficient data handling

WORK EXPERIENCE

Grader-United International University
June 2023 - September 2023
- Evaluated programming assignments and exam scripts with a focus on correctness and code quality
- Assisted in identifying logical errors and improving student code through structured feedback

EDUCATION

United International University(UIU) - B.Sc in Computer Science and Engineering,**(2022-2026)**
MAJOR: Data Science **| CGPA:** 3.39/4

KEY ACHIEVEMENT

3rd Runner Up,UIU CSE Project Show
DATABASE MANAGEMENT SYSTEM

CERTIFICATIONS

CCNA:Introduction to Networks
